UNFOLDING THE HISTORY

ABOUT TOKLA TEA

Nepal is renowned for its breathtaking natural beauty and diverse environment. One of its most prized treasures is the tea gardens located in the foothills of the Kanchenjunga mountain range in the eastern region. The first tea plantation in Nepal was established in 1863 AD by Colonel Gajaraj Singh Thapa, Governor General of Eastern Nepal, who used seeds gifted by the Chinese Emperor. In 1966 AD, the Nepal Tea Development Corporation was formed, which included seven tea estates. In 2000 AD, the Government of Nepal privatized the tea estates and handed them over to the Triveni Group.

Today, this company oversees all seven tea estates, including two that were originally planted by Colonel Gajaraj Singh Thapa in 1863, and five tea estates established through British technical collaboration around 35 years ago.
